Nicholas D. Munro.

The funeral of Nicholas D. Munro was held yesterday afternoon from the residence of his mother at Midway, to the church and finally to the lower cemetery on the hill. The occasion was evidently one which concerned very deeply the whole countryside, of which the young man had won the very highest respect. Nine weeks ago yesterday he had returned with his friends, who were his pall bearers yesterday, from the University of McGill College in Vancouver, where last year he had distinguished himself so markedly by taking the very highest standing in the province. On Friday last he had been taken ill with typhoid, which was complicated by cerebro meningitis, and on Monday he was brought to the Sisters' Hospital, where his death occurred on Tuesday morning. It is not too much to say that Nicholas Munro was not alone the pride of his home and friends, but of the entire town of Midway, and the country surrounding it. The young men who were his closest friends at

college, say that among students and teachers he was not only highly respected, but greatly liked. That he had made his place firm in the hearts of the people, young and old, of Midway, was very evident in the sorrow and sympathy expressed there yesterday.

After a brief service at the home, the funeral proceeded to the Midway church, the service being conducted by Rev. W. R. Ross, who testified to the Christian character of the deceased. A solo was given by Master Frank Chery. Interment took place in the lower cemetery, which is situated most beautifully on the bench overlooking the valley.

The pall bearers were: Chas. C. Galloway, John D. Galloway, Percy Holden, W. G. Young, Alex Hardy and Bert Melville.

Floral tributes to the deceased were given by the K of P. lodge and several citizens of Midway. To his mother, brothers and sisters, the sympathy of the Boundary is extended in their bereavement.

## NEW DOMINION FISHERIES RULES

Incorporate Change Asked by Local Association

The new Dominion Fishery regulations appear in the Canada Gazette this week and are synopsized in the despatches to include several very interesting changes. One of the changes petitioned for by the local fishery association is embodied in the regulations, the close season for trout being extended in the interior from March 25th to May 1st.

The taking of trout of all kinds is prohibited from November 15th to March 25th following, except in the waters of the Interior of the Province of British Columbia east of Parallel 120, West Longitude, where the taking of trout of all kinds from November 15th to May 1st following is prohibited.

Other changes are that—  
Fishing with nets in British Columbia waters is prohibited, except under license. One-third of any cove, bay or inlet must be kept free from nets.

No kind of netting is allowed in fresh water lakes and on non-tidal waters.  
Salmon under three pounds must be returned to the water. Trout under three pounds cannot be bought, sold or exposed for sale in the Province.

In the matter of licenses, only British subjects residing in the Province can obtain these. In many instances the price has been raised.

The following letter sent by Mr. Duncan Ross to the Fish Association explains the delay in the visit of the Fisheries Department expert to this vicinity and will be of interest to the members of the Association:

OTTAWA, June 9, 1908.

DEAR SIR—Referring to the matter of the examination of the lakes which you desired to be made this spring, I regret to say that Mr. G. W. Taylor, F. R. S. C., a specially qualified expert on fish and fishing, after visiting the Kootenay lakes, was seized with a serious illness, which prevented the completion of the survey.

He was unable to visit the waters you specified, and he is now lying very ill at his home near Nanaimo, B. C., but he writes that he is improving.

When he is well enough to return to the interior, I will inform you of the dates when he will visit the various points, so that the local associations may meet him and give him information and aid for the benefit of the fish supply in the whole district.

Yours faithfully,

EDWARD E. PRINCE.

Duncan Ross, Esq., M. P.,  
House of Commons.

County Court

County Court will be held on Tuesday next, June 23rd, before His Honor Judge Brown in the court house. On the docket are applications for naturalization from G. Mario, Ole Berg, James G. Manross, R. O. Hultgren and A. Malmberg, Sidney V. Moriarity, Lautard V. Bedard, and an appeal in the matter of a conviction against D. McBride, of Bridesville, are the customary cases from the vicinity of Sidney. Four judgment summons and three local suits are also on the docket, beside five cases against the Sodbury Mining Co., and three against the Providence Mining Co. for the collection of accounts overdue.

## MOTHER LODGE MAKES RECORD

Tonnage at Mine and Smelter Both Show Large Increase—First Aid Building

The smelter at the B.C. Copper Co. is making records this week for treatment, for its own ores, the treatment being 11,452 tons for this week. The Mother Lode alone which last summer when the reduction works were running at their best was turning out from 800 to 1000 tons of ore daily on Thursday, this week did better than 1,600 tons. Tonight at midnight the new compressor will be put into regular service and the mine will be able to ship 2,000 tons a day. Its regular running is expected to be about 1,900.

The new compressor has been described previously in these columns. It was turned over the first time early this week, and has been tested several times since, its final test being made this afternoon. Its installation means that the company will now be able to keep its own reduction works at full blast in the treating of its own ores, and will mean that its highest tonnage in 1907, which for the month of July totalled 47,798 tons, will be equalled by the Mother Lode mine alone.

The Oro Denoro in 1907 shipped 14,481 tons. In practically the first month of their operation since the resumption, they have handled 8,356 tons of ore, or nearly 60 per cent. of their total output for the whole of last year.

With the increased size of their operations, the company is contemplating a number of improvements. At the Mother Lode the erection of an Emergency and First Aid room for use in case of accident will be erected immediately the work being started perhaps this week. The building will be placed just beside "The Change" and will be fitted so as to be of material advantage to huddling injured men until the arrival of the ambulance. It is understood that the company has also under way a number of extensions and improvements at the Mother Lode of which particulars are not yet available.

NOTHING TO IT.

Major Hodgins and His Counsel Can not Agree

Ottawa, June 16.—It is predicted that when the committee which has been investigating the charges of over classification on the National Transcontinental meets here tomorrow, they will report that the charges have been abandoned and that there is nothing to investigate. Just previous to the committee rising, at 6 o'clock this evening, Major Hodgins, replying to a question, said that he considered that a board of arbitrators was the only proper tribunal to determine the question at issue.

At the evening sitting E. Macdonald argued that the order of the referee empowered the committee to investigate the Hodgins' charges to which publicity had been given in the newspapers. The charges of fraud against the commissions had been withdrawn by Major Hodgins, who also declared that the classification question should be left to another tribunal.

Mr. Frank Hodgins being asked for a statement, said that he did not quite agree with the position taken by his client, and was given until 10.30 Wednesday morning to consult with him and communicate the result to the committee which will meet at that hour.

## DENORO NEWS

CORRESPONDENCE.

John Ludwig, a mucker at the Denoro mine met with a rather serious accident last Sunday forenoon. It seems he was working at the No. 5 Quarry when a machine and tripod which was set on a bench above him toppled over. One of the legs of the tripod striking him on the side of the head. He fell over into the chute and was cut very badly on the head in several places. Dr. Spankie, Jr., was promptly in attendance. The injured man was taken late in the day to the Greenwood hospital, where he is now progressing favorably.

Miss J. Mizzen, employed at the Windsor hotel, has been very ill with inflammatory rheumatism but has sufficiently improved so as to be able to be conveyed to her sister's home at Phoenix, where all her friends wish her a speedy recovery.

Fifteen more men have been put on at the Denoro mine this week.

With a few more children in camp, the citizens of Denoro contemplate taking up the question of having a school. At present the children have to walk five miles a day to Eholt, in order to get their schooling.

R. Mathieson, the genial Secretary of the Greenwood Miner's Union was in town yesterday looking after the interests of the Western Federation of Miners.

(Too late for last week's issue.)  
Denoro mine is now shipping on an average of 500 tons of ore per day to the smelter.

James Cunningham is busy with assessment work on his different mining claims.

J. Cooke left on Wednesday for Cascade.

Mrs. William Jones and children, from Phoenix, were in camp last Sunday and Monday visiting friends.

Thursday was pay day in the camp and everybody seems to be happy over it.

All Mrs. J. Cooke's friends are pleased to see her about again after her illness.

## Accident at Mother Lode

Drawn by the conveyor belt of the crusher at the Mother Lode into the pulley-wheel, Frank Taylor had his right arm torn from the socket on Tuesday morning. Taylor had been putting tar on the belt with a brush and in an attempt to save the brush which stuck to the belt was jerked along himself. He had been doing the same work for nearly two years' past at the Mother Lode but had worked at Phoenix during the shut down.

Taylor remained quite conscious throughout the ordeal and spoke constantly to the men who were helping to relieve the pain. He was brought to the Sister's hospital.

The promptness with which his removal was accomplished is stated to have been very commendable, it being scarcely more than an hour from the time of the accident until the patient was in the hospital. On Tuesday he rallied well from the shock having suffered very little from the loss of blood owing to the main arteries having knotted themselves in their recoil after the shock. The doctors have given the patient careful and effective attention, and although complications set in yesterday, he was carried safely over the day, and improvement started last night which is continuing today. His recovery is confidently expected by Dr. Spankie, who are in attendance.

## GRAND LODGE AT WESTMINSTER

Inaugurates New Rebekah's Assembly—New D.D.G.M.

At New Westminster on Wednesday, Thursday and Friday of last week, the thirty-fourth session of the I. O. O. F. Grand Lodge of British Columbia was in convention, opening on Wednesday morning at 9.30, with about 70 delegates in attendance.

Among the old familiar faces known to Oddfellows throughout the country was that of Fred Davey, of Victoria, who has held the position of Grand Secretary, continuously, for the past twenty-five years, and is now looked upon as a permanent fixture in the Grand Lodge. He is elected year after year to succeed himself without opposition, and it is said, the "grand old man" can feel assured of his position as long as he is capable, physically, of handling it. Mr. Davey is now in his 71st year, but is yet hale and hearty, and at every session works like a Trojan. He is a veritable walking storehouse of knowledge on lodge matters, and would be almost indispensable at a Grand Lodge session.

The Grand Lodge is important because of the formation at its session of the Rebekah Assembly, which will meet annually at the same time as the Grand Lodge. The first business of the lodge was the adopting of the constitution and by-laws for the Assembly. On Wednesday afternoon the Assembly held its first session as a properly constituted Grand Lodge. Its new officers were installed by Past President Sister Espleman, of Blaine, assisted by Past President Sister Hathaway, of Seattle, Sister Kirtledge, of Ocosta, and Sister Walsh, of Vancouver, and were as follows: President, Sister M. E. Keith, New Westminster; Vice-President, Sister F. Bacon, Nelson; Warden, Sister N. Hanna, Vancouver; Secretary, Sister F. A. Walker, Victoria; Treasurer, Sister A. Lee, Rossland; Conductor, Sister M. L. Beck, Fernie; Chaplain, Sister M. Muir, Ladysmith; Inner Guard, Sister L. Tait, Phoenix; Outer Guard, Sister S. Walker, Slokan; Marshal, Sister M. Langham, Nanaimo.

On Wednesday evening the officers of the Grand Lodge were elected and were as follows:

H. T. Fulton, of Ladysmith, grand master; Wallace Law, of Vancouver, deputy grand master; E. L. Webber, of New Westminster, grand warden; Fred Davey, of Victoria, grand secretary; C. S. Keith, of New Westminster, grand representative; W. H. Cullin, of Victoria, grand treasurer. Thos. Embleton, of Rossland, is the retiring grand master, and D. E. Mackenzie, of New Westminster, is the retiring grand representative. He is succeeded by another New Westminster man, C. S. Keith, who will attend the sovereign grand lodge in Denver in September.

On Thursday morning the greater portion of the session was taken up with the discussion of the founding of an Odd Fellows' home. The best ways and means of raising funds seemed a perplexing question. There is now a fund of several thousand dollars on hand for this purpose.

Vancouver was selected as the place for holding next year's convention.

On Thursday evening the hospitality shown throughout the

## PROGRAM FOR CELEBRATION

Includes Full List of Sports With Large Prizes—Good Two Day's Celebration

Preparations for Greenwood's Dominion Day celebration are going on apace. Already six baseball and five hose teams have stated that they would enter the contests under their respective heads. The horse racing committee have put the track into good shape, and the program of the sports, given below, will show what is being offered in the way of sports. That it is better than ever before, is only the truth.

FIRST DAY.  
9 a. m., Grand Parade.

To the most realistic display representing a firm's business. Best decorated turnout. Best decorated saddle-horse and rider. Best decorated bicycle and rider. Best comic turnout. Parade will assemble at rear of Alhambra and proceed along Silver street to Ladysmith hotel, and return by Copper street, dispersing at point of commencement.

10.30 a. m.—Caledonian Sports. SILVER STREET. 1st 2nd  
50 yard dash, boys under 16 years.....\$ 2.50 \$1.00  
100 yard dash, boys under 16 years.....15.00 7.50  
50 yard dash, girls under 16 years.....2.50 1.00  
Putting 16-pound shot.....5.00 2.50  
220 yard dash, girls under 16 years.....15.00 7.50

1/2 Mile Special Cowboys' race.....25.00 10.00  
(Prize donated by Jas. McCreath.) Entrance Fees—5 per cent of first money, with exception of special race

meeting of the Lodge by the Westminster lodge had its climax in a grand banquet, which kept the Oddfellows sitting up into the small hours. This concluded the business of the Lodge.

The new D. D. G. M. for this district, appointed by the Grand Master, is E. Foyle Smith of Boundary Valley lodge. Greenwood representatives report an excellent time.

EDITOR A. D. MACFARLANE

FRIDAY, JUNE 19, 1908

For weeks piled upon weeks, the people of this country have been sitting back watching the absolute waste of time in dealing with the country's business in the House of Commons. The Conservative caucus occasionally emitted a shrill chuckle of delight at the success of their obstructionist tactics. Now they have come to see that they have overstepped themselves and would move heaven and earth to throw the blame on Sir Wilfrid Laurier, whom only a little more than a fortnight ago they claimed to have under their feet.

The Government have apparently thought it wiser to allow the thing to bring its own natural punishment on the opposition and its own logical lesson to the country. Unfortunately many people only learn through suffering and the country becomes aware of ridiculous and reprehensible political tactics only through an object lesson.

To the government, only one alternative has offered itself—the closure. The closure, thanks to the unreasonable and foolish antics of Messrs. Foster and Borden has suggested itself as necessary in the Commons. No more illuminating discussion of what the closure is has come to our notice than that in the current issue of

the Canadian Courier. In closing the Courier says:

"The people express an opinion at the polls as to which party they desire to trust with the spending of their money, for instance; and if the power of debate is employed to take this power away from the majority, it will only be a matter of time until the people will demand that business go on. As to the manner in which the 'closure' will be introduced, it was introduced, to begin with, in the British House on the simple action of the Speaker who arranged on one day with the Government that at nine the following morning, if the House were still debating the bill at issue, he would arise and put the question; which he did. This disposes of the notion of some that it would take the Government at Ottawa as long to get a 'closure' bill through as to pass supply."

The Conservative press in this province has tried in its usual way to excite the people over the meaning of this method of securing to the people the right of its own opinion. The Courier discussing this says:

"The 'closure' has come to be a sign—not of the death of liberty—but of the growth of the nation. All big countries, which are governed by elective bodies, have it. It is the mark of an adult people. Only a small people whose business is not of much importance anyway, can afford to leave the affairs of state at the mercy of a few long-distance talkers. It is not for a moment a question of which is right or wrong at Ottawa just now. The next time trouble arises, it will probably be the Liberals who will propose to prevent a Conservative majority from doing business. We could take the risk when we had twelve months in which to do about two months' worth of business. Then we could feed that passion in our blood aroused by the old cry for 'free speech' and the sanctity of the persons of our members of Parliament. But now we are growing up. Sir Wilfrid or somebody has made us nation. We have a nation's fair allotment of business to do in our national business session. And we must forget our fear of ghosts and devote our attention to seeing that the national trains run schedule time."

"In two words, free speech has ceased to be an issue in democratic countries. It is as firmly established as trial by jury. Indeed, if one heeds the grumbling one hears at the jury system, it is more firmly established. There is not the remotest danger of any tyrannical government daring to interfere to the slightest extent with the full right of everybody—including members of Parliament—to speak freely. That stage in the evolution of human liberty has been accomplished so

far as such countries as Canada are concerned. The issue now to the fore is efficiency. How are we to get the public business done in the best way, in the shortest time and at the least expense? In Britain and the United States, they have decided that they must condense the debates of Parliament, which is no more important, so far as liberty is concerned, than a newspaper's decision that it must condense the reports of Parliament.

The fear of the "closure," which we hear of occasionally these days, is one of those hereditary fears which we got from our ancestors: precisely as most of us will not go through a graveyard if we can help it. It is true that we do not believe in ghosts; but our ancestors did, and the fear of them is still in our blood. So we have been taught for so long to value above all other things the "sacred right of free speech" that we tremble all over when anybody proposes to interfere with that right, especially in the high court of Parliament. There is precisely where our ancestors had to fight hardest for their "blood-bought right" to say the thing they would. Parliament was their spokesman; and it was Parliament's right to discuss freely any measures proposed by the Crown which they found it most difficult to win and most costly to defend. To propose to limit the free speech of the people's representatives in Parliament would, then, cause these old champions of liberty to turn over in their graves. Unfortunately, the graves of many of their seniors are in the bodies they gave us; and there is consequently a mighty "turning over" in us when some one disturbs one of their old battle fields.

But let us come down to June, 1908. Let us banish for the moment those heroic ghosts of Pym and Hampden and the like, and consider the case of the more or less respectable, but not very heroic, gentlemen whom we elect to do our business at Ottawa. Now, suppose they talk a trifle less, will our liberties be in danger? If they were compelled to cut their speeches in two or even three, would we begin to send people to the Tower or would a grim Bastille rise in our midst? Never mind this hereditary passion for hoary phrases that is implanted in us just now. In what way is freedom bound up with garrulousness at Ottawa? This frightful monster—the "closure"—exists in London. Is Britain any the less a free country than it was in the golden days of Pitt and Fox when open bribery was rampant, when Peers nominated a fair proportion of the Commons, and when the great mass of the British people did not have a vote between them?

**DO AWAY WITH SMELTER SMOKE**

Mining Science Gives Result of Successful Experiments

Litigation brought by the farmers in Salt Lake Valley, is said by Mining Science to have resulted in successful experiments, with the end in view of doing away with the smelter smoke nuisance. Trials of different methods with various kinds of furnaces have been made for nearly three years and Mining Science claims that a successful method has been arrived at.

It was found first, contrary to the general belief that the damage occasioned by smelter smoke resulted from the fumes and sulphuric acid discharged into the air and not from sulphur dioxide. The fumes referred to consist of extremely minute atoms—impalpable powder—so light that they are held in suspension for long periods of time. For instance it was found that if in a vessel partially filled with water, these fumes were poured they would remain in suspension showing no tendency to settle upon the water for 48 hours. Thus they are carried over large areas, being so very light, and when coming into contact with water are almost instantly injurious to plant life be-

cause of the sulphuric acid. It is also important that roaster furnaces give off more sulphuric acid than blast furnaces.

"When the investigations were started, it was known that the gases from lead blast furnaces could be filtered and the solids arrested but for roaster furnaces containing in their fumes more sulphuric acid, no filtering medium could be secured, the bags used in filtering being instantly destroyed by the gases. The sulphuric acid in the roaster gases amounted to a production of about three or four tons daily when roasting 200 tons of sulphide ores.

No material resistant to the sulphuric acid could be found even for the copper blast furnaces which emit fumes containing a small proportion of sulphuric. An agent to neutralize the acid was then looked for and with the trial of zinc oxide, the results were entirely successful. The sulphuric acid was entirely neutralized with formation of zinc sulphate; the sulphur dioxide was not attacked by the neutralizer, the bags were preserved and the filtration of the gases was perfectly effected.

An experimental baghouse was put into use on the copper plant and ran with the same bags for months. The rate of filtration was six times that practiced on the large scale, so that this test was practically equal to one of a year. After the termination of this experiment the bags were torn into strips and the tensile strength of the threads tested. The fabric was found not to deteriorated in the least. A test was now made on a large scale; a portion of the copper furnace gases were carried over to a section of the baghouse taking lead furnace gases. This test lasted three months. About 50 lbs. of zinc oxide were used daily for the neutralization of gases. This experiment was also altogether satisfactory.

The zinc oxide can be applied either by blowing it in a finely divided condition into the flue; or it can be caused to evolve from zinc ores treated in a special furnace.

**MINING**

Forty new coke ovens are being built at Coleman.

The new Phoenix company, operating in Wellington Camp, sold 18,000 shares of stock last week. An addition has been made to their properties. The addition lies across the G. N. railway and immediately below the Woodburn claims, and is said to have good indications of ore. Arrangements are being made to install a seven-drill compressor plant for the driving of the tunnel, work upon which will start at once. There is already some 85 feet of shafting on the Woodburn property, 60 feet of which is on the copper ledge, and 25 feet on a quartz ledge.

The installation of a new aerial tram line from the store powder magazine to the thaw, for the purpose of conveying powder, has just been completed by the Granby Company. The line is 1,400 feet in length and the tram

is operated by a seven-horse power motor. This will do away with a team of horses which has been kept steadily employed in conveying the daily supply of powder.

A large copper deposit has been discovered near the main line of the G. T. P., 220 miles north of Prince Albert. The lead is 400 feet wide, and so far as traced, runs for 30 miles. The lead is between two granite walls and the ore taken from a depth of 15 feet is very rich. The deposit is on the southern fringe of the rocky northland. Just across Lake Laronge is the huge coal deposit of the G. T. P.

Another important mining deal in Phoenix was completed on Thursday evening, when the Lucky Shot, Myrtle No. 2, and Northern Belle mineral claims were purchased from C. H. Reeves and J. E. W. Thompson by the Lucky Shot Development Company, of which C. H. Reeves is chairman and T. A. Love, secretary-treasurer.

The company has been formed locally and the properties acquired by it are regarded as very promising, located in a high-grade belt and about three miles east of Phoenix.

The interests in the syndicate are all subscribed and no stock will be put on the market at the present time. Development work will commence on June 15th and will be pushed along vigorously.

Those composing the syndicate are: C. H. Reeves, J. E. W. Thompson, William Lindsay, A. R. Geddes, W. J. Prendergast, Joseph Labelle, G. L. Thompson, S. J. Mathews, T. A. Love, J. W. Hannam, D. J. McDonald, W. X. Perkins, P. Pinker, William Hall, George Harrison, H. J. Baird and Herbert Smith.—Phoenix Pioneer.

**Better Cooking.**

Every man appreciates good cooking and every woman takes a pride in doing it. "BOVRIL" can be used to advantage with all hot dishes. It greatly improves the flavor of stews, soups, roasts, fish, etc., and also increases their nourishing value. An economical way to get it is in the 1 lb. bottles.

**Keep an Eye on the Fish.**

The Dominion Government has opened a new biological station at Departure Bay, Nanaimo. Every summer this will be the resort of the most eminent biologists of the Dominion, for whom the arrangements made, provide splendid accommodation. This summer, Prof. Macoun, the veteran naturalist of the Geological survey branch, Dr. Huntsman and Mr. McLean Fraser, of the University of Toronto, Prof. Burwash, of the University of McGill, will carry on special investigation there. The station is to be a workshop for men interested in the propagation and preservation of British Columbia fish life.

The cost to the country of such an institution will be a mere nothing, and those who know assert that the value of the institution, even as an advertisement of the varied fishery resources of British Columbia, will many times outweigh the cost.

Collections in every department of marine geology will be accumulated and stored at the station, so that in time (though this is not its primary object, it will become a museum well worth seeing.

MRS. MURRAY, graduate in vocal and instrumental music, is prepared to receive pupils in piano, organ and voice. Latest Conservatory methods taught. Class in Greenwood, Monday, Tuesday and Wednesday; Midway, Thursday; Phoenix, Friday and Saturday. For terms and further particulars apply at room 34, Pacific Hotel.

## Fruit Industry

## Prices of Orchards.

Fruit lands similar to these mentioned below, can be had in British Columbia for very little. Fruitvale is near Yakima, in the State of Washington. The authority for the prices is the Seattle Post-Intelligencer. The P. I. says:

"Osborne Russell, one of the pioneer fruit growers of the Fruitvale district, has closed a deal for the sale of his thirty-two acres of fruit land in that section. John Ambrose, of La Crosse, Wis., and Irving Russell, son of Osborne Russell, being the purchasers.

"Russell's fine Spitzbergen orchard was the record orchard of the valley last year, yielding an income of \$4,000 to the acre. Other fruit, such as Elberta peaches, Hungarian prunes and pears, gave exceptional yields, and the Russell place was one of the show spots of the country."

"Sixteen acres of the orchard were sold for \$20,000, or \$1,250 an acre, while the other half of the tract brought \$12,000."

## Outlook for Fruit Crop.

That over one-fifth more fruit than was produced last year will be marketed by the fruit growers of the province this season, is the opinion of W. J. Brandith, of Ladner, secretary of the B. C. Fruit Growers' Association, the parent body which fathered the

Provincial Fruit Exchange, which this year will handle one-third of the total fruit of British Columbia.

That estimate is a very conservative one, moreover, for rarely, if ever, has Mr. Brandith seen the orchards of the province looking in such splendid shape as they do this year. He is, and has been engaged in lecturing under the auspices of the society upon fruit packing and pruning. His work has taken him throughout the fruit growing districts, so he ought to know.

This one-fifth increase, moreover, takes no account of the natural increase from the older trees, which year by year increase to a certain point in their producing power. Mr. Brandith is sanguine, very sanguine, as to the prospect of the crop, but he says, not unduly so. And combined with this phenomenal crop which is promised, there is to be considered, he states, the fact that rarely if ever have the market conditions been more favorable.

"Why, according to the report of railway officials," he remarked to the Colonist yesterday, "there is more land surveyed into roads in Manitoba, Saskatchewan and Alberta than there is under cultivation. Think of the number of people, every one of which is a prospective consumer of B. C. fruit, and you will see what the future has in store for us. The Exchange has a standing order for 30,000 boxes of assorted ap-

ples from Australia alone, and the prices offered are very tempting, yet it is doubtful if we will be able to fill it. We haven't the fruit, I fear, to spare in the quantities and species desired.

"The English market is practically an unknown quantity as yet. Several tried shipments in addition to the provincial exhibits sent thither and sold. have been marketed with success in the Old Country. The difficulty in transshipping is still a barrier. However, when the Panama Canal is completed, British Columbia apples and fruit may be shipped to Great Britain in proper cold storage by water direct."

Now is the time for the fruit grower in embryo to start in, according to Mr. Brandith. Many have recognized this, and much additional land will be placed under orchard this year. Last year, some 1,000,000 new fruit trees were planted.—Colonist

## Provincial Items

Nelson will have a new public school, costing \$60,000. It will be built at once.

The award of the Chinese claims for the riot damages in Vancouver totals \$25,990.

No liquor licenses will be issued for the construction camps of the G.T.P. in this province.

Chinamen last month paid \$121,500 at the port of Vancouver for the privilege of entering Canada. This is a record month.

Three hundred indigent Hindus are willing to be deported from Vancouver, according to Mr. Mackenzie King. Seven hundred more are likely to be shipped off.

The June marriages are in full swing in Vancouver. What fun the June brides have descending on their trousseaux to the reporters.

Immigration into Canada from the United States shows an increase of 61.2 per cent in the first four months of this year over a similar period for last year.

The Chinese government is said to be anxious to form a colony at Tonking, diverting there a great deal of the immigration coming to Canada. Tonking is under French jurisdiction.

Revelstoke sent a deputation to interview the government re the wagon road from there in to the G.T.P. Line and is now looking for \$100,000. That'll be a wrench for Dickie's boy Billie, to stand.

Grand Forks old timers will hold a picnic at Lake Newby on July 1st. This is the second annual outing the old timers have held at this place. A large dancing pavilion has this year been erected on the grounds.

Changes in the C. P. R. time table, that came into effect on Monday, make the Boundary train leave Nelson at 9:15 instead of 9:45, and arrive at 10:55, instead of 10:30. The evening train for the coast will leave Nelson at 7:40 instead of 7:15.

Kamloops is advocating the route via the Valley of the North Thompson river as the most desirable means of connection from the south with the main line of the G.T.P. To this end they are asking the provincial government to improve the trail to the Tete Jaune Cache. Of the Valley the Sentinel says:

"One great advantage offered by the North Thompson valley is the fact that for practically its entire length it is an agricultural

country and for 150 miles is peopled by thrifty settlers. With the opening up of a traffic road more settlers would pour in and the double purpose would thus be served of affording better transportation facilities to the settlers and giving the Tete Jaune district direct connection with the south. Settlers in the North Thompson valley would be in a position to supply the northern camps with many of the supplies needed, and in this way there would be an additional incentive to settlement.

Prince Rupert is growing. Today it has 56 places of business. On January 1st last it had 12. Within a month it will have hotel and lodging-house accommodation for 1,000 people. Prices of merchandise are reasonable, and will probably average about the same as is charged at Vancouver.

**CUSTOMS BROKER**

MR. C. V. MURPHY, ST. CATHARINES

**CURED ITCHING PILES**

Mr. V. Murphy, a Customs Broker and Insurance Agent at St. Catharines, Ont. He writes the ZAM-BUK Co. as follows: "I have been a sufferer for years with itching piles. I have spent many dollars on advertised remedies for Piles but no relief. A friend of mine advised me to try ZAM-BUK. I had but little faith in any remedy to cure me, but tried one box and I got relief at once. I have used four boxes and am completely cured. I cannot thank you enough for such a wonderful cure. I have recommended ZAM-BUK to my friends and they too were cured."

**ZAM-BUK** Sold by all druggists and stores, or the ZAM-BUK Co., Toronto.

Application for Liquor License.

In thirty days from date, I intend to apply to the Superintendent of Provincial Police for a renewal of Liquor License for the premises known as The Riverside Hotel, Rock Creek, B.C., to commence on July 1st, 1908.

S. T. LARSEN, Applicant.  
May 1st, 1908. Rock Creek, B.C.

**LICENSE ACT, 1900.**

TAKE NOTICE that I, Evan O. Lewis, of Boundary Falls, intend applying to the Superintendent of Provincial Police, at the expiration of one month from the date hereof, for a renewal of my hotel license for the premises known as the Smelter Hotel, at Boundary Falls, Dated at Boundary Falls, the 7th day of May, 1908.

Signed, E. O. LEWIS

**Copper HANDBOOK.**

(New Edition issued March, 1908.)  
Size: Octavo. Pages: 1228.  
Chapters: 25.  
Scope: The Copper Industry of the World.

Covering: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: \$5.00 in Buckram with gilt top, or \$7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent on, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

WRITE NOW to the editor and publisher,

## A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. It is, of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages.

It will cure, however, all chronic, acute, and nervous coughs, chronic sore throat, hoarseness, in acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from the lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if it is accompanied by tartaric gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood, curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about this wonderful medicinal roots composing this wonderful medicine. There is no alcohol in it.

## IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of Frank Fera, Otherwise Known as Francesco Fera, Deceased, and in the Matter of the Official Administrator's Act.

TAKE NOTICE, that by order of the Honorable Mr. Justice Morrison, dated the 2nd day of June, A. D. 1908, I was appointed Administrator of the said singular, the estate of the said Frank Fera, otherwise known as Francesco Fera, late of the City of New Westminster and the City of Greenwood, deceased, and that notice of such order was thereby ordered to be published twice in the Daily Columbian Newspaper, and twice in the Boundary Creek Times.

AND FURTHER TAKE NOTICE, That all persons indebted to the above estate are required to pay me the amount of their indebtedness forthwith, and all persons having claims against the said estate are required to present them to me, duly verified by affidavit, on or before the 18th day of July, A. D. 1908, after which date I will proceed to distribute the said estate, having regard to such claims as are then properly before me.

Dated this 11th day of June, A. D. 1908.

C. G. MAJOR, Official Administrator.

## Synopsis of Canadian North-West HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions, joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY, Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Similkameen Land District. District of Yale.

TAKE NOTICE that Joseph H. Leasia, of the District of Yale, Province of British Columbia, by occupation timber cruiser, intends to apply for permission to purchase the following described land: Commencing at a post marked J. H. Leasia's S.E. Corner Post situated at the North East corner of J. H. Fene's application Lot 622; thence north 20 chains; thence east 20 chains; thence south 20 chains; thence west 20 chains to point of commencement, and containing 160 acres, more or less.

Joseph H. Leasia, Locator.

Dated November 2nd, 1907.

Similkameen Land District. District of Yale.

TAKE NOTICE that Anna Wilson, of Park Rapids, Minn., occupation Housekeeper, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the North East corner of W. Bager's Pre-emption Record No. 115S, being Survey Lot No. 789S; thence East 80 chains; thence south 60 chains; thence West 80 chains; thence north 60 chains to point of commencement containing 480 acres, more or less.

## Purely Personal

Dr. Simmons, dentist, Phone 96  
Wallace-Miller Block, open evenings

Mrs. Andy Sater is visiting friends in Seattle.

R. D. Kerr, of Midway, was in Greenwood on Tuesday.

Benj. Coleman, of Bridesville, spent Saturday in Greenwood.

Inspector J. D. Gillis, of Nelson, conducted the entrance examinations here this week.

Mrs. F. V. Venables will be at home to callers on Monday, 22nd inst., afternoon and evening.

Mrs. Richard Lynch-Staunton, of Livingstone, Alta., is visiting her brother, W. C. H. Wilson.

Angus MacLennan and Mrs. MacLennan, of Anarchist Mountain, were visitors in Greenwood Wednesday.

Jas. Ritchey, Jr., of Bridesville, of J. Ritchey & Son, sawmill men, was in Greenwood on Saturday.

Mrs. E. H. Mortimer left on Saturday with her boy and girl to visit at the home of her parents at Northport, Wash.

Mrs. R. J. Sanders and family leave tomorrow next for St. Paul, Minn., to spend the summer at the old homestead near that city.

Chas. Rundberg, of Phoenix, superintendent of the Dominion Copper Co.'s mines in Phoenix camp, was in town with Mr. Roosa on Wednesday.

W. Elson and G. B. Taylor returned last evening from the Grand Lodge I.O.O.F. at New Westminster. Jos. Wilmshurst came in on the same train after a fortnight's visit to the coast.

Chas. C. and John D. Galloway, sons of C. Scott Galloway, spent last night in Greenwood. They had been attending the funeral of their friend and schoolmate, Nicholas Munro, at Midway.

Constable Dinsmore arrived in town on Tuesday and assumed his duties as chief of police. Mrs. Dinsmore will reside in Grand Forks for a few weeks longer.

Bert Logan is a Fire Warden on the North Fork of the Kettle river. His duties consist in guarding the properties there of the C. P. R. against destruction by fire.

Arthur F. Venables, of Vernon, paid a visit last Friday to his son, Rev. F. V. Venables, rector of St. Jude's. Mr. Venables was a delegate to the synod held recently at Nelson.

Rev. T. G. McLeod, B. A., Presbyterian minister at Grand Forks, will be the preacher at both services of St. Columba's church on Sunday. Rev. Mr. McKee doing similar service at Grand Forks.

Mrs. Willis Hubble, her daughters, Mrs. Cole, of Campbellford, Ont., and Miss Lillian Hubble, of Havelock, Ont., are visiting Mrs. P. Poupard, Government street, who is also a daughter of Mrs. Hubble. O. W. Hubble, also of Havelock, and a brother of Mrs. Poupard, is with them.

### Entrance Examinations.

Examinations for entrance to the High Schools were opened in the Greenwood school on Tuesday morning by Inspector J. D. Gillis, of Nelson. The examination held here is for pupils from all over this district, the schools represented this year being Greenwood, Boundary Falls, Deadwood, Midway and Phoenix. Seventeen children in all are taking the examination, the largest number going up from here for some years past. Their names are as follows:

Greenwood—Olive Bunting, Theodore Hunter, Marjorie McArthur, Roddie McCutcheon, Arthur Peterson, Wilkie White.

Boundary Falls—Geo. Craig, Webster Ryan.

Deadwood—George Graham, Arthur McMillan.

Midway—Ethel Ferguson, Elsie Gunderson, Olga Huischer, Gladys Jackson, G. L. Melville.

Phoenix—Bertrand Knott, Etta Murray.

The examinations closed here yesterday afternoon.

## TOWN TOPICS

The Diamond-Texas is shut down for a week in order to make some repairs to the hoisting plant.

The Kitties band will show in Greenwood on July 6th. A five hundred-seat house is expected. The Board of Trade is pushing the matter.

The B. C. Copper Co.'s Smelter this week treated 11,450 tons of ore, distributed as follows: Mother Lode, 8,800; Denoro, 2,196; Napoleon, 398; Lone Star, 58.

Low prices combined with high quality conduce to economy. This combination is pre-eminent in our new 1908 Wall Paper stock—McRae Bros.

If the influx of babies at the Mother Lode continues, the company will be obliged to erect a number of new cottages. The Mother Lode boasts of three new babies in one week.

A reduction of 25 per cent. on last year's Wall Paper looks good to many. How about you? This reduction means money saved. McRae Bros.

The Midway Ball Team will make a dash to regain their reputation on Sunday afternoon at Recreation Park. The local ball team will also figure. There is a free bleacher for deadbeaters at all ball games high up on the hill.

Fishing Tackle, Rods, Reels, Lines, Flies, etc. It pays to deal at McRae Bros.

Sunday morning next Phoenix and Greenwood lodges, A. F. & A. M., will attend services in St. Jude's church. Rev. Venables, the vicar, will preach a sermon suitable to the occasion. All regular Masons in the vicinity are invited to meet in Lodge at 10:30.

Andrew Johnson, of Greenwood, recently purchased the Joslyn ranch, comprising some 13 acres, well improved, the consideration being \$1,800. This farm is located across the Kettle river from Grand Forks, near Cooper Bro.'s ranch.

The ladies of the Church of England, will hold a promenade concert in Miller's hall on Tuesday evening, June 23rd, at 8 o'clock, to which everyone is invited. Refreshments will be served and a collection taken up in aid of St. Jude's guild. There will be songs by Mesdames Oliver, Shaw, Venables and Stow, Messrs. McLaine, Venables and Curtis, a cello solo by Miss Belden and dancing afterwards.

### An Interesting Discussion.

In a recent issue of the Canadian Law Times and Review there appears a leading article, by J. D. Spence, on a most interesting constitutional question arising out of the definition of the powers conferred on the provinces by the B. N. A. Act. An insurance company, chartered by the Ontario government, had accepted, in the province of Quebec, risks situated in the state of Maine. It had afterwards repudiated its liability on the ground that the property destroyed—standing timber—was not of a class it was authorized by the Ontario statute to insure. In the action to recover, which inevitably followed, the broad question of the right of a company chartered under provincial authority to undertake business outside the province was taken up and attracted most eminent

legal counsel for both plaintiff and defendant in the case, as well as for the Dominion and provincial governments. The argument centered about the interpretation of the limitation placed on provincial governments by Secs. 91 and 92 of the B. N. A. Act, and a division of opinion resulted among the members of the Supreme Court bench. The resume of the argument, interesting and important in itself, given by Mr. Spence, is particularly lucid, and is stated with an exactitude and elegance of phrase that is very creditable. Anyone at all interested in this, which is a characteristic feature of our Canadian constitution, will find it excellent reading.

### Midway K. of P.

Midway Lodge No. 36, K. of P. last Tuesday evening elected their officers for the ensuing six months, the officers elected were: C.C., H. Eldridge; V.C., C. Bubar; K.R. & S., S. G. Stooke; M.F., D. Tamblin; Prelate, H. Stevenson; M.A., P. Heilscher; M. of W., E. Oldendorff; I.G., P. Holden; O.G., C. Melville.

### Restell-Burkman.

At the residence of the bride's father, on June 10th, Arthur Robert Restell, of Midway, and Elisa Ann Burkman, daughter of Thos. Samuel Burkman, of Boundary Falls, were united in marriage by Rev. Walter R. Ross.

### Washkoski-Lavonture.

At the Church of the Sacred Heart, on Tuesday, June 16th, by Rev. Father Bedard, O. M. I., John Washkoski and Julia Lavonture, both of Greenwood, were united in holy matrimony. They will reside in Greenwood.

If you want to rent or buy a Piano or Organ see A. L. White. He has 'em.

In the County Court of Yale, Holden at Grand Forks--In Probate.

NOTICE is hereby given that on the 19th day of December, 1907, it was ordered by His Honor Judge Brown, that A. C. Sutton, Official Administrator in and for the Grand Forks and Greenwood Electoral Districts, be Administrator of all and singular, the estate of William Freer, late of Boundary Falls, B. C. deceased, intestate. Every person indebted to said deceased's estate is required to make payment forthwith to the undersigned, and every person having in possession effects belonging to deceased, is required forthwith to deliver same over to the undersigned. Every creditor or other person having any claim upon or interest in the distribution of the estate of the deceased is required before the 22nd day of July, 1908, to send by registered letter, addressed to the undersigned, his name and particulars of his claim or interest, and a statement of his account, verified by statutory declaration, and the nature of the security (if any), held by him. After the said 22nd day of July, 1908, the administrator will proceed with the distribution of the estate, having regard to those claims only of which he shall then have had notice. Dated at Grand Forks, B. C., 7th May, 1908. A. C. SUTTON, Official Administrator, Grand Forks, B. C.

## For Sale

Six roomed House, near C. P. R. Depot, electric light, hot and cold water, bathroom, and tennis court. Price \$2,000.

Also would like to buy a small house near centre of town.

If desired would make an exchange of former for latter.
